Cross-walking vision, methods and metrics to address EAP targets by EPC and City staff – Objective: what are best methods (best return on investment of time and money ROI) to achieve EAP targets and how are we measuring them over time? Or

What will be different when each program/plan is implemented and who will we hold ourselves accountable?

FY23 EAP targets and EPC Major Focus areas included:

- 1) Increase energy efficiency with new building and incorporate as much on-site renewable energy as possible change energy efficiency standards and encouragement/incentivize renewable energy & other changes to entitlement process see latest EPC letter to Council
- 2) Increase retrofits (energy efficiency with heat pumps, and others) of existing buildings
- 3) Increase education and outreach to make this all work
 - a. Fund 3 new FTE's Climate lead, vision zero staff and communication person

What's Next?

| # | Focus Areas | J.G. Description | RF description | EAP chapter | Prel. budget | Recurring Budg |
|---|--------------|-------------------------------|-------------------------------|---------------|---------------|----------------|
| 1 | Incentives | Implement and leverage | FIRST: | 2.3.5, 3.1.8+ | \$250-300,000 | \$75-100,000 |
| | | funding, incentive, and | -Targeted incentives | | | |
| | | supporting programs | Heat pump H2O heaters | | | |
| | | (rebate opportunities, green | Smart thermostats | | | |
| | | banks and/or community | EV charging assessments | | | |
| | | choice aggregation, P3, | -Community Partnership | | | |
| | | regional, state , fed | grants | | | |
| | | investment, etc. to improve | ONGOING: | | | |
| | | existing building energy | -Promotion of existing | | | |
| | | efficiency/use of energy | incentives from Federal | | | |
| | | efficient technology/higher- | Infrastructure, IRA, Dominion | | | |
| | | efficiency and renewable | MOVE TO FIRST | | | |
| | | energy sources, incentivize | -Targeted incentives to | | | |
| | | low impact new | promote specific | | | |
| | | development | improvements | | | |
| 2 | Env. Justice | EJ focused on all but now | FIRST: | various | \$50,000 | \$25-50,000 |
| | | focus on weatherization and | -Community/Energy Burden | | | |
| | | energy assistance programs, | Solar Fund | | | |
| | | addressing heat and | -Initial investment from City | | | |
| | | flooding vulnerabilities | -Explore alternative methods | | | |
| | | specific to EJ communities | of funding | | | |
| | | and help coordinate climate | ONGOING: | | | |
| | | action with City Council, and | -Fleet Farming w/ ALIVE! | | | |
| | | other priorities reflecting | -Heat Vulnerability planning | | | |
| | | Race and Social Equity | and action | | | |
| | | (RACE) | -Eco-City Academy | | | |
| | | | NEW: Combine Increase in | | | |
| | | | energy efficiency & | | | |
| | | | renewable energy with | | | |
| | | | Zoning for Housing/Housing | | | |
| | | | for All proposal to support | | | |
| | | | RACE | | | |

| 3 | Education, Capacity | a. | , | FIRST: | 2.3.2, | \$175-275,000 | \$125-250,000 |
|---|---------------------|----|--------------------------|------------------------------|---------|---------------|---------------|
| | Building and | | residents, businesses | -1st Responder EV/battery | 10.1.1- | | |
| | Outreach | b. | Facilitate technical | fire Training | 10.1.3 | | |
| | | | assistance programs to | -ACPS Sustainability | | | |
| | | | support | Competition | | | |
| | | | residential/small | -Meet the Office of Climate | | | |
| | | | businesses/non-profits | Action | | | |
| | | | in green | -Meetings w/ Businesses, | | | |
| | | | building/renewable | community | | | |
| | | | energy/energy | -Logo & art design | | | |
| | | | efficiency/EV charging | competitions | | | |
| | | | implementation. | | | | |
| | | | Includes potential for | ONGOING: | | | |
| | | | leveraging local tech | -Electrification | | | |
| | | | assistance providers to | Showcase/Event – | | | |
| | | | benefit workforce | September 2023 | | | |
| | | | development and | -Home improvement | | | |
| | | | attract economic | education program | | | |
| | | | development | -Solarize Alexandria | | | |
| | | | opportunities. | NEW FIRST: inundate | | | |
| | | c. | Conduct outreach to | community with information | | | |
| | | | promote use of City, | about IRA and Infrastructure | | | |
| | | | regional, state, federal | incentives | | | |
| | | | incentive programs (IRA, | | | | |
| | | | C-PACE, etc. and | | | | |
| | | | leverage partnership | | | | |
| | | | opportunities. | | | | |

| 4. | Disclosure, | Establish robust voluntary | FIRST: ALX Climate | 2.3.4; | \$175-200,000 | \$75-100,000 |
|----|----------------|-------------------------------|-----------------------------|-----------|---------------|--------------|
| | Monitoring and | disclosure and recognition | Champions Recognition | 10.1.4-5; | , | , |
| | Recognition | program for residents, | City staff (?), businesses, | 10.2 | | |
| | | schools, and businesses to | residents | | | |
| | | report their successes in | | | | |
| | | reducing env. impact/green | GHG voluntary reporting, | | | |
| | | building initiatives. | education program | | | |
| | | Enhance EAP | | | | |
| | | implementation by | Community Energy Model | | | |
| | | monitoring, measuring, and | | | | |
| | | reporting efforts by the City | ONGOING: | | | |
| | | and community including | Sustainable Business | | | |
| | | development of Community | recognition program | | | |
| | | Energy Model to track | | | | |
| | | energy use and GHG | GHG voluntary reporting, | | | |
| | | reductions by various | education program | | | |
| | | energy efficiency and | | | | |
| | | Renewable energy programs | | | | |
| | | offered by the City and | | | | |
| | | other partner organizations, | | | | |
| | | evaluate cost effectiveness, | | | | |
| | | and provide supporting info | | | | |
| | | to optimize community | | | | |
| | | energy use. | | | | |

| 5 | Demonstration | City/other agency demonstration projects that represent viable business case for the community and that build internal expertise available to the community — gas-powered equipment replacement, EV charging, net-zero cost study, explore purchase of direct solar panels vs. buying renewable energy credits (RECs) on open market to offset City's use of electricity | FIRST: Building Electrification Pilots/Case Studies ONGOING: Building Performance, Solar + Storage on City Facilities Solarize Alexandria | Chapters 1,2,3 and 7 | \$50-100,000 NOTE: if no longer purchasing RECs, we should net ~\$200,000 extra for more climate programs - this money should not just disappear into City budget | \$50-100,000 NOTE: if no longer purchasing RECs, we should net ~\$200,000 extra for more climate programs - this money should not just disappear into City budget |
|---|------------------------------------|--|--|-------------------------|--|--|
| 6 | Policy, Procedures and advocacy | Coordinate a cross-departmental and agency effort to lead advocacy and implement policies, procedures and guidelines that achieve EAP2040 targets and upcoming ECCAP recommendations. Continue ensuring that the City is strategic with resources and has adequate capacity to maximize greenhouse gas emission (GHG) reductions and meet climate targets. | ONGOING: Permitting & Energy Education / Disclosure Climate Action Incubator & Departmental Coordination Investigate incorporating climate lens as part of CIP process | Various | \$25-50,000 | Mainly utilize existing and newly hired OCA staff |
