

City of Alexandria, Virginia  
FY 2025 Proposed Operating Budget & CIP  
Budget Questions & Answers

March 27, 2024

**Question:**

What would the additional cost to the CIP budget be for the project to ensure that the pump station(s) to be built as part of waterfront flood mitigation will include publicly accessible bathrooms in the initial design and implementation?

**Response:**

The anticipated additional cost for including and delivering finished restrooms within the proposed pump station, as currently conceived, would be approximately \$350,000.

The figure below provides the conceptual layout of first-floor restrooms used as a basis for this estimate:
