	Will delivery drivers use th	eir own vehicles?	Yes	No	
	Where will delivery vehicles	s be parked when no	ot in use?		

# OLD TOWN RESTAURANT POLICY

# Changes to Old Town Small Area Plan Chapter of the Master Plan Adopted by City Council on November 13, 1993

On November 13, 1993, the City Council adopted Resolution No. 1672, which outlines new policy and criteria used in applying the revised Old Town Restaurant Policy. Individuals who apply for a special use permit to operate a restaurant in Old Town must address in their entirety five criteria in order to be considered for a special use permit. An application will not be formally accepted for processing until this questionnaire is completed.

# GOALS OF THE OLD TOWN RESTAURANT POLICY

- 1. To lessen the on-street parking impact of restaurants in Old Town and adjacent areas;
- 2. To prevent rowdiness and vandalism from patrons leaving restaurants, particularly in the late evening; and
- 3. To control the spread of litter in Old Town.

### POLICIES TO ATTAIN THE GOALS OF THE OLD TOWN RESTAURANT POLICY

City Council shall not approve a request for special use permit for any new restaurant, carry-out or fast food establishment or an expansion of an existing restaurant, carry-out or fast food establishment, unless it finds that the request does not significantly impact nearby residential neighborhoods. City Council shall consider the cumulative impact of the proposal and the number of already established restaurants, carry-outs, fast food establishments and the number of food service seats, bar seats and standing service areas in the immediate area. In the case of an expansion or other intensification, the entire operation of the establishment may be taken into account in determining its impact upon the nearby residential neighborhoods. In making that determination, City Council shall consider the following factors:

- The availability of off-street parking.
- The predicted impact of the restaurant on parking supply in the adjacent neighborhood.
- The extent to which the restaurant is open in the late night hours.
- The extent to which alcohol (such as spirits, mixed drinks, wine, and beer) consumption will predominate
  over food consumption, including consideration of the number of bar seats, if any, and the standing areas
  in the vicinity of bars.
- The predicted extent of litter generated in nearby neighborhoods.

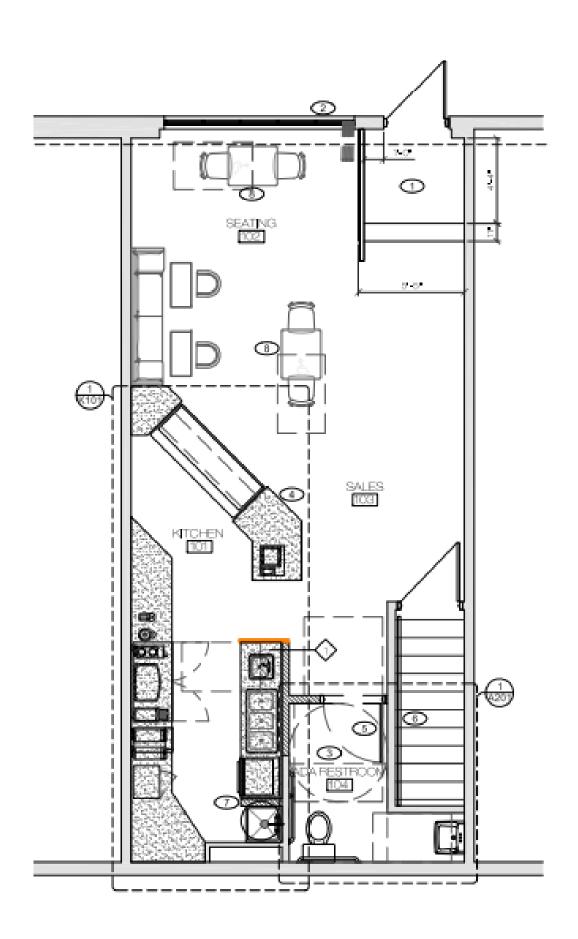

# CRITERIA TO BE USED TO EVALUATE NEW OR EXPANDED RESTAURANTS

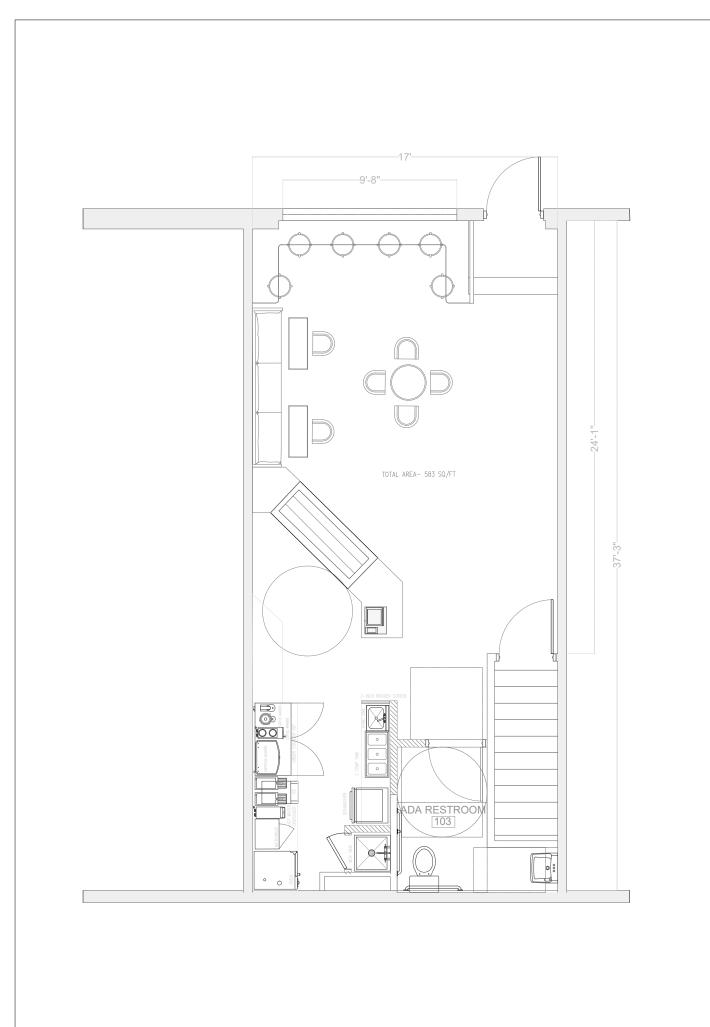

Parking Management Plan. The applicant must submit a parking management plan (PMP), which specifically addresses the following issues:

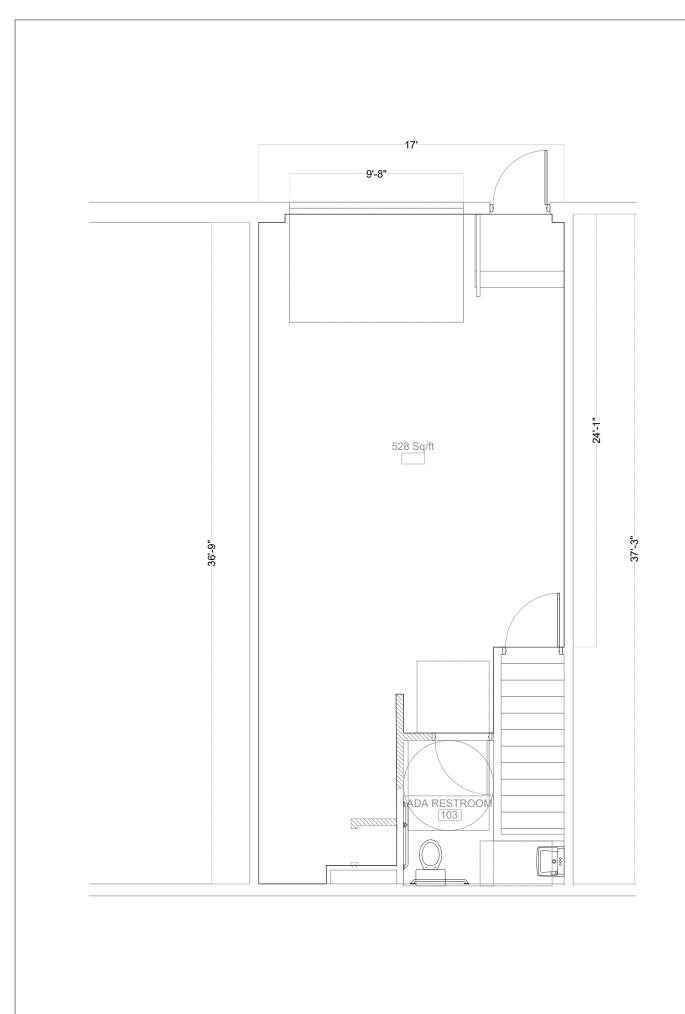

- The parking demand generated by the proposed restaurant.
- The availability of off-street parking for patrons. For the purpose of this policy, availability shall be
  measured in terms of the number of vacant off-street parking spaces within 500 feet from the entrance to
  the restaurant.
- How employees who drive will be accommodated off the street at least in the evenings and on weekends.
- The predicted impact of the restaurant on the parking supply at the evening, weekend, and daytime peaks.
- A proposal to reduce the impact of parking created by the restaurant on nearby areas. Acceptable
  alternatives for reducing parking impacts include, but are not limited to, the following: validated parking or
  valet parking for patrons, and off-street parking or transit subsidies for employees.
