Financial Tools Overview

Housing 2040 Tools

Programmatic Tools

These tools follow according to a program, or schedule in the Housing Master Plan. An example of a programmatic tool would be to revise the formula for voluntary contributions and index to reflect inflation.

Financial Tools

These tools facilitate the production and preservation of affordable housing by leveraging state, federal, and other resources.

These tools incentivize the production and preservation of affordable housing through additional density and/or height.

2013-2025 HMP Financial Tools

What we have done and what we are currently doing

2013-2025 HMP Financial Tools

General Fund Direct Allocation Support

The **Meal Tax** dedicates 1% of all meal tax revenue and allocates it to the general fund for affordable housing. The fiscal year 2019 Budget increased the restaurant and meals tax from 4% to 5%. The percent change in the meal tax allowed the city to invest **\$6.9** million into Affordable Housing in FY25. As well, established an affordable housing project category in the Capital Improvement Program (CIP). An additional **\$1m** in funds is allocated annually in the CIP.

Annual Lump Sum Appropriations

The **Penny Fund** dedicates one penny from each dollar of property tax revenue and allocates it to the general fund for affordable housing. In 2006, the dedication was a penny, then dropped to 0.006 of a dollar but is now back to 0.01 of a dollar. FY 25 allocation for affordable housing is **\$3m**.

2013-2025 HMP Financial Tools

Loan Guarantees

Subject to project underwriting, selectively utilize the City's credit and/or credit rating to **guarantee loans for affordable housing**.

- City explored but has not enacted a program
- Comfort letters to lenders have been provided

Loan Consortium

Develop an independent entity that brings together the City, lending industry, and private investors to **provide loans for affordable housing**.

- The City explored the potential of an independent loan entity during the HMP, but no independent loan entity has been established.
- The Housing 2040 planning process will revisit the potential for a Loan Consortium

2013-2025 HMP Financial Tools

Tax Abatement for Substantial Rehabilitation

Enact a policy that provides a form of tax abatement for the rehabilitation of affordable housing.

The Policy was reviewed, but it did not move forward.

Currently, ARHA receives tax abatement for their redevelopment projects and a key requirement is that ARHA retains a majority ownership interest in the project.

 The Housing 2040 planning process will revisit the potential for a tax abatement for affordable housing projects in general.

Fee Relief and Waivers

Currently, ARHA receives certain fee waivers for their redevelopment projects.

■ The Housing 2040 planning process will revisit the potential fee relief and waivers for rehabilitation and redevelopment of all affordable housing projects.

What we plan on doing

TOOL	PROCESS
Tax Abatement/ Exemption	 Revisit the potential for a tax abatement/exemption for affordable housing projects in general. Currently, ARHA receives tax abatement for their redevelopment projects and a key requirement is that ARHA retains a majority ownership interest in the project. Affordable Housing projects are currently assessed at Market Value based on the City Restrictive Covenants in place.
Loan Consortium	 Develop an independent entity that brings together the City, lending industry, and private investors to provide loans for affordable housing. The Housing 2040 planning process will revisit the potential for a Loan Consortium during the Housing 2040 planning process.
Fee Relief and Waivers	 Revisit the potential fee relief and waivers for rehabilitation and redevelopment of all affordable housing projects. Currently, ARHA receives fee waivers for their redevelopment projects such as Tap fees and code fees.
