

# **City of Alexandria Arts Program Grant Frequently Asked Questions and Guidelines**

Since 1984, the City of Alexandria has been providing arts grant to ensure access to quality arts programs and events for its residents and visitors.

The amount of available grant funding and qualifications may vary from year to year. Please be sure to review the grant application and guidelines carefully before applying.

## **About the Arts Program Grant**

Arts Program Grants are available for up to \$12,500 and should not exceed 50% of total program budget and require a 1:1 (dollar for dollar) cash match. Arts Program Grants support ongoing or short-term arts programs that engage and benefit the residents of the City of Alexandria. Annual grants fund activities that take place within the City of Alexandria between July 1 – June 30 each year.

## **What are the goals of the City of Alexandria Arts Program Grant?**

The Arts Program Grant has the following goals:

- To strengthen Alexandria's creative capacity by providing its residents with diverse opportunities to meaningfully engage with the arts.
- To improve the capacity and stability of Alexandria-based organizations to create, perform, and present works of artistic excellence and innovation through organizational support and program funding; and
- To create a vibrant urban environment by supporting diverse individual artists, organizations, and other entities in the creation, performance, and presentation of high-quality works of art across the City of Alexandria.

## **What is a “Program”?**

A “program” is defined as a series of activities or events which are ongoing during the grant period (July 1 – June 30 each year). Programs do not have to be “new” to be eligible for funding.

It is easy to confuse a “program” with a “project”. Generally, programs occur over time and are developed with a longer time frame in mind and can be a single event or an ongoing series. To clarify the distinction between a project and a program -- a project is the marketing campaign for the production of one play; a program is the annual production of an entire season of plays.

Examples include: an after-school arts education program involving many types of workshops and artistic disciplines; an annual subscription season of performances, an ongoing Artist-in-Residence series presented at a community center.

Programs have specific goals, objectives, and impacts on the organization, its audiences, participants, and the community. While the content or people involving in program delivery may vary; the original program intent and goals do not change without significant planning or evaluation. Applicants should be able to clearly articulate how the program supports their mission and organizational goals.
