

City of Alexandria, Virginia
FY 2026 Proposed Operating Budget & CIP
Budget Questions & Answers

March 24, 2025

Question:

Are there any programs in the last three years of the proposed CIP that have been included in the CIP for many years but not advanced towards completion?

Response:

Almost all funding budgeted in the last three years (FY 2033 – FY 2035) of the CIP is for state of good repair work, ongoing maintenance, annual contributions (like WMATA payments) and staffing. There are no projects in the last three years of the CIP that meet this condition of being included for many years and not progressing.
