

*Preserving Our Planet
for the Grandchildren
and All Life*

Our Mission

The mission of Elders Climate Action is to mobilize elders throughout the United States to address climate change while there is still time to protect the well-being of our grandchildren and future generations. We are dedicated to using the power of our caring, our wisdom and our numbers to push for strong policies and practices that will reduce greenhouse gases in our atmosphere to a level consistent with life thriving on our planet.

We are here to support the younger generations, to show that their parents and grandparents truly care and are going to do everything in their power to protect the world for them.

Did You Know?

Elders are the largest demographic in the United States: about 74.6 million of us are 60 or older. We make up 34% of registered voters!

We are Rising to Have our Voices Heard!

- ECA launched in 2014 as a non-partisan movement of elders taking action at local, state and national levels, targeting government, finance and industry
- We are an all-volunteer organization
- In 2015, ECA had about 250 members. Today ECA has more than 33,000 members and followers.
- In 2016, a group in Massachusetts created our first chapter. We now have 12 active chapters and more in formation.
- You can find us on Facebook, Instagram, Twitter, Threads, LinkedIn and YouTube.
- We participate in a number of climate coalitions

ECA's National Priorities

- Protect Legislative and Policy Progress on Climate
- Reduce GHG and Other Air Pollution to Protect Climate and Health
- Phase out Fossil Fuels and Support Transition to Clean Energy
- Build Popular and Political Support for Climate Mitigation and Adaptation
- Grow and Strengthen ECA
- Protect current and future generations
- Embed social and environmental justice in every action

Centered in Equity & Justice

How Local Chapters Take Action

- Educating our communities: library displays, educational programs, retirement communities, tabling at events
- Advocating for just and effective climate policies at the city, county and state levels (renewable energy, EV school buses, regenerative agriculture)
 - Many use the Climate Action Now app for local advocacy
- Pushing for climate emergency declarations and community climate action plans
- Hosting events (rallies, protests, town hall events, visibility events, honk & waves, local strikes, legislative days)
- Building coalitions and work with other climate organizations
- Providing testimony or public comments
- Building relationships with and educating elected officials & decision makers
