

#	Question	Answered during meeting
1	Where is the Robinson Terminal project in the planning process?	This project was just approved by City Council this past Saturday (6/14/25), which means the applicant now moves into the final site plan phase where they will begin preparing detailed engineering plans and applying for various permits to prepare the site for construction.
2	Thank you so much for these presentations! It makes it easier to follow all the projects.	Thank you!
