TOPIC

Academic Support & Student Success

TOPIC DESCRIPTION

many students are affected by limited access to academic support especially on one help and tutoring opportunities. Students may not get the help they need because of busy schedules or being scared to ask for help.This could increase stress and lower confidence . this issue matter in Alexandra because academic success affects their future.

BASELINE DATA & GOAL

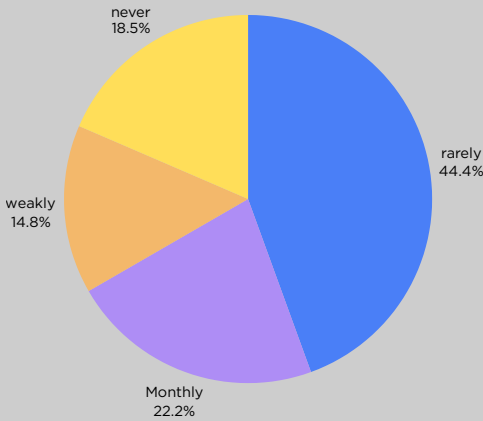

there has been a 7% on teacher providing extra help.My goal is to improve access to academic support by increasing tutring programs and have more one on one and teacher support.

CYCP GOAL & STRATEGIC AREA

my CYCP goal is academic environment and success.my issue fits this goal because it focuses on improving students grades and making sure young people have enough access to academic support.

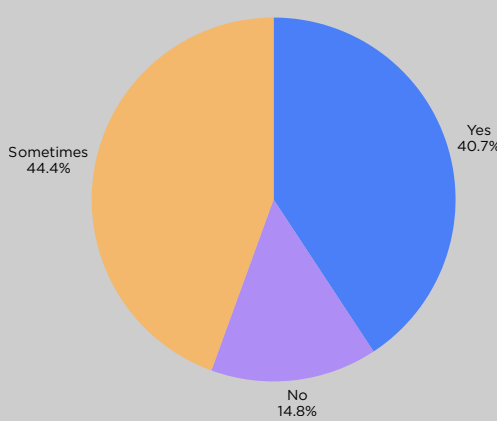

WHAT IS HAPPENING RIGHT NOW?

HOW OFTEN DO YOU USE TUTORING OR EXTRA HELP SERVICES?

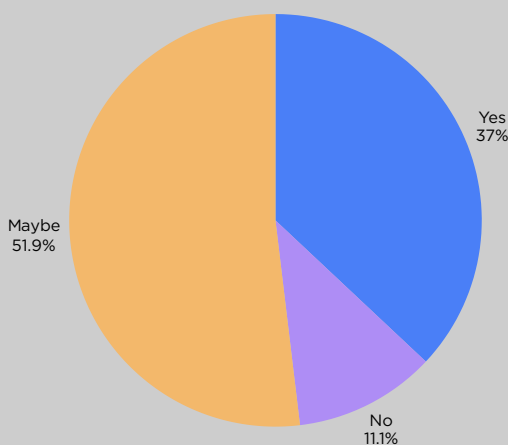

the data shows a 44.4% say rarely 22.2% say monthly 18.5 say never and weakly is 14.8%.it matter because i want to know i want to know if they even use it and understand why they dont use it

DO YOU FEEL SCHOOL GIVES ENOUGH TIME OR SUPPORT TO IMPROVE YOUR GRADES?

the data says 44.4 for sometimes,for yes it is 40.7 and for no it is 14.8. It matters because it show how students feel about having enough time

WOULD MORE TUTORING OR AFTER-SCHOOL HELP IMPROVE YOUR ACADEMIC PERFORMANCE?

the data show for maybe 51.9 % yes is 37% and for no it 11.1 this matter because it tells us that if tutoring could help are kids and if we needed push them to see the benefits of having more tutoring

WHAT HAS ALREADY BEEN TRIED?

Explain what the school, city, or other groups are already doing about this issue.
the schools do provide help through office hours and tutoring and there is other programs.

WHO CAN HELP?

capital youth empower program
they are a non profit
Linkclub they help kid no low income houshold

Capital youth can unite kid together and help them for the workforce.
link club can help low income famillies to give them the time and resource

WHAT HAS BEEN DONE SO FAR?

there is a a 80% of students agree that thier teacher do provide extra help to students but it has been going down to 7% since 2020 and my survey says they rarely use tutroring or extra help.i

IS IT ACTUALLY HELPING?

I think people could use more time and recorse overtime it has been going down by 7% by since 2020 and i think there is many diffrent way to increase that by focus more on kids acadmics

WHAT SHOULD CHANGE? (YOUR SOLUTION)

The school should add more after school program for tutoring session and.Increasing awareness for kids 44% of kids rarely do use tutoring because the scheduling issues or there just shy.Give them one on one tutoring in my survey a lot of them said some teacher go to fast or need more time on one on one.

WHAT WILL HAPPEN NEXT?

it will give kid lives in a huge way kid will get the help they by having more affter school prgrams and on 1 on 1 with there teacher. there grade will improve so they can have a nice future and it will improve there mental health
