

WHAT HAS ALREADY BEEN TRIED?

They provide lunch but they are still charging snacks and drinks which takes away the privilege of providing free snacks.

WHO CAN HELP?

ALIVE: provides food to who are in need in Alexandria.

ACHS NUTRITION: Are the one in school handing out the food, but also can support in food stamps and more.

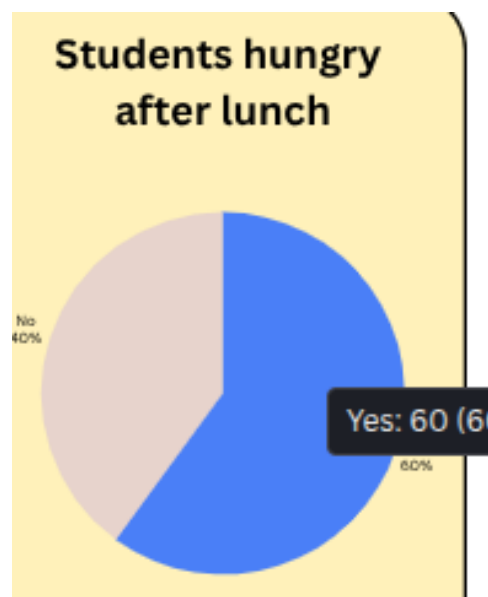

WHAT HAS BEEN DONE SO FAR?

:Well so far there has not been an upgrade yet, they still provide free school lunch but pretty much it.

Which is not really great, because they are not providing free snacks during school hours or during lunch, and we must be much more concern of this current situation so the school and community can take care for there academic learning and and not having food to affect throughout lifetime and school time.

IS IT ACTUALLY HELPING?

Based on this data, actions are not seem to be taken, because in the Titan change maker throughout the years the percentage of hunger for students has quite increased overtime, which we must be concern and at the current moment its not really helping to the ACHS and community. Which is 60%.

WHAT SHOULD CHANGE? (YOUR SOLUTION)

Provide free snacks during lunch or after lunch.

Offer healthy options such as:

- **Granola bars**
- **Crackers**
- **Fruits**
- **Water/Juices**

Snacks could come from:

- **School funding**
- **Donations**
- **Community programs**

And this will impaxct all students in many varites ways to keep there academic learing and to imporve more in school overtime.

And getting support from Food Banks and Stores and also local churches, and gathering all donations overtime will support the community.

WHAT WILL HAPPEN NEXT?

By improving we would need support by the teachers and students and also parents who are willing to help, and by all donations to stores as Safeway, Giant and also churches, it would make a impact to the community and school to to give free snacks during school hours. Which is the next step and will prove much more academically.
